- Excellent Proficiency in C#
- Clean code Writing

Education

LEBEANESE INTERNTIONAL UNIVERISTY

School of Engineering

2020-present (expected graduation date 23/01/2024)

Experience

COMPANY: BYTETACTIX

Position: Software Engineering Internship

Duration: 01/7/2023 - 01/10/2023

In my current role as a full-stack engineer at ByteTactix, I've honed my skills in backend development, primarily focusing on Python. While I've primarily specialized in backend work, I also have experience with React and React Native for frontend and mobile application development, respectively. My diverse skill set enables me to contribute effectively to a range of projects, from backend to frontend and mobile app development.

COMPANY: DYNASOFT TECHNOLOGIES

Position: Full-stack Developer

Duration: 01/10/2023 -present

As a full-stack engineer at Dynasoft, I've specialized in .NET backend development, complemented by proficiency in Flutter for mobile apps and React for web development. My experience extends to actively contributing to the development of ERP products. This background equips me to provide comprehensive solutions, ensuring seamless integration between backend systems and intuitive user interfaces for ERP applications.
