Education

2020-2023
BS Computer Engineering
Lebanese international university

Expertise

- API Development
- Visual Design
- Full-Stack Development
- Embedded Systems
- Arduino Programming
- Mobile Development

Language

English
Arabic
French

Skills

- Project Management Skills
- Programming with HTML, CSS , and Javascript
- Java Development
- Back-end Development (PHP, Django)
- Front-end Development(React.js, React Native)
- Excellent Proficiency in Python
- Clean code Writing

Education

LEBEANESE INTERNTIONAL UNIVERISTY

School of Engineering
2020-2024

Experience

COMPANY: BYTETACTIX

Position: Software Engineering Internship
Duration: 22/7/2023 - present

In my current role as a full-stack engineer at ByteTactix, I've honed my skills in backend development, primarily focusing on Python. While I've primarily specialized in backend work, I also have experience with React and React Native for frontend and mobile application development, respectively. My diverse skill set enables me to contribute effectively to a range of projects, from backend to frontend and mobile app development.

Projects

- Task-Listing Backend Project(Django, Django Rest Framework)
- Work-management Project (Django, Django Rest Framework)
- PerfumeLand(HTML, CSS, JS and PHP)
- React.js project(API based Project on movies searching)
- React Native full stack project (E-learning company)
- Controller motion sensor (Arduino based)
- Bootstrap demonstrative project
